# WAKE UP AMERICA!

*Transcription from URL at the end of this article.*

"My experience has given me a very unique perspective in approaching COVID-19, which is basically keeping people out of the hospital. Regarding children.... The only reason you would want to treat a child [with the vaccine] is if you believe in child sacrifice (Hebrew). If you want to be Mock?? Children, like a carbon of the (unintelligible) there is a very good reason to give them the shot. Otherwise, there is not necessity. Let me explain.

Anytime you evaluate any therapeutic you need to look at it from three perspectives:

1. Is it safe? 2. Does it work? 3. Do you need it?

Just because you have a capability doesn't mean you need to use it. There has to be a medical necessity. There has to be a need for it.

You look at the CDC the statistic for children under the age of 18, that are healthy, the survival rate is 99.998% survival rate with No Treatment. Just like Dr. Yudin said, the influenza virus is more dangerous to children than COVID-19, and he made an estimate of per million, 100 children would die from the vaccination. I feel that number would be significantly higher, and I will explain to you the rationale for it.

[So] If you have a demographic (can you hear me?) If you have a demographic that has no risk of dying from an illness, why would you inject them with a poison death shot?

Now, let's see if this thing works. Two countries in the world that are most vaccinated its citizens is Israel at 85% rate of vaccination, and an island nation in the Indian Ocean, called Seychelles, also over 80%.

Both countries are experiencing a Delta Variant outbreak. So, let me ask you a question: If you vaccinated a majority of your population, why are you still having an outbreak? That's number 1, number 2: If you give a third shot of the same stuff that didn't work the first 2 times, that's whether or not it works.

Let's talk about safety. Now this is the real issue. There are three levels of safety or death that we need to look at. One is acute, one is sub-acute, and long-term. Acute, I will define as the moment from injection to 3 months. The number 1 risk of the shot is blood clots, just like Dr. Yudin said, according to the Salk Institute. [And] By the way, everything I am saying, I will defend with documentation. [And] Please don't take my word for it, you should do your due diligence. [And] I can provide to you proof for everything that I am saying. According to the Salk institute, when a person gets an injection of these "vaccines" the body becomes a spike producing factory, making trillions of spikes which migrate to the endothelium, which is the interlining of the blood vessels. [And] It's basically little thorns on the inside of your vasculature. As the blood cells flow through it, they get damaged, they cause blood clots. If that happens in the heart, that's a heart attack; if that happens in the brain, that's a stroke.

So we [are] seeing the number cause of death in the short-term is from blood clots, and most of it is happening within the first 3-4 days. Forty percent is happening within the first 3-4 days of injection of this poison death shot.

Now, the other problem is that it's causing myocarditis, or inflammation, in the hearts in children... in young adults, I'm sorry. In the hearts of young adults.

The third problem, which is most disturbing, is according to the New England Journal of Medicine article, their preliminary data, the miscarriage rate in the first trimester, when a woman gets vaccinated in the first trimester, goes from 10% to 80%. I want you to understand what I just said. The miscarriage rate in the first trimester of pregnant women, when they get vaccinated goes up by a factor of 8. That's preliminary data, it may change over time, but I'm just telling you what is as of today.

That's the smallest of the problem. The second is the sub-acute death issue, which is the following. That the animal studies that were done with these vaccines shows that all of the animals responded well in generating antibodies. When they were challenged, however, with the virus they were immunized against, a large percent of them died. [And] when that was investigated, it was found that their immune system had killed them. It was something called antibody dependent enhancement [ADE], or pathogenic priming, or paradoxical immune enhancement. But the point is that a lot of those animals died, so you can make an argument that maybe human beings are different.

# SO WHAT'S HAPPENING WITH THE ARIZONA ELECTION AUDIT?

On September 24, 2021 @ 1:00 pm local time, Maricopa County delivered the details of the findings of the forensic audit of the 2020 election. Even before the scientific and statistical anomalies were systematically illustrated, the mainstream media stuck with reporting, Joe Won! Here's what they didn't say.

Senator Kelly Townsend published this statement outlining the audit findings.

**'FOR IMMEDIATE RELEASE'**

Senator Kelly Townsend reacts to the Arizona Election Audit Report, Phoenix, AZ

September 24, 2021

I am thoroughly shocked, yet not surprised, at the product that was delivered to the people of Arizona by the hands of Adrian Fontes regarding the 2020 General election. Although the raw numbers of votes show a similar outcome to the official canvass. The important outcome is that the votes that were counted could be trusted as actual and true voter submissions, according to Arizona State law.

**Join @CBKNEWS** 9.6K 6:33 AM

Arizona purged election data the day before the audits. The media is reporting that Biden still won, what they are not reporting is that the auditors were provided with altered data.

**Join @CBKNEWS** 10.1K 6:35 AM

Election data was deliberately destroyed to prevent the auditors from accessing it. The auditors know exactly who destroyed the data. The identity of the criminal was given to AG Brnovich.

**BRNOVICH MUST INDICT**

However, we learned today that there was a myriad of issues with the counting process that undermines the confidence in the true and accurate count of this election. The election system simply does not balance.

Some of the issues that jump out immediately to me are as follows:

- **Deleted / purged files** - The timing and deletion of files the day before the 2/2/21 audit. Maricopa county purged the machine records the day before the audit started. Many .exe and .dll files (approximately 1500) were either deleted or modified.

- **No security or credential management.** There were shared accounts and passwords which made the identification of those deleting or purging files difficult, but not impossible.
- **Duplicates ballots** were grossly mismanaged, and our laws were broken regarding this important part of our election process.

- **Chain of custody** was not accurately kept, making it impossible who touched what and when.

- **Envelopes without signatures**, images of ballot envelopes with an apparent approval stamp behind the basic graphics of the envelop, suggesting tampering.

- **Connectivity to the internet** has been established, in violation of Arizona law and contrary to what we have been told about the system.

- **Sloppy caretaking of ballots**, missing batches in boxes, batches in boxes not listed on the box or county list.

These are just a few of the many issues brought up today and necessitate a dramatic change in the way we oversee our elections, and how we hold those accountable who have broken our laws. Most importantly, whenever there is malfeasance and skullduggery, we must both nullify that election and repeat it with one more securely conducted, and we must move forward with indictments of those who perpetrated this fraud against us."

<http://blackinamerica.com/content/371319/full-hearing-audit-report-released-to-az-senate-in-phoenix-az-9-24-21>

When you have the kind of legal offenses revealed in the report, the final outcome of "Joe Won?" hardly seems like the final take away. Given the egregious illegalities present in Maricopa Secretary of State's office,

the real take away is "Why is no one in jail?" When the data deletions occurred one day... let me say that again, ONE DAY before being turned over for audit, that was the first clue that the Secretary of State's office had something to hide, and IN FACT they did hide it with the delete button.

Quoting Ron Watkins, IT Professional and Telegram influencer, "If you "win" an election by a margin of 10k votes, but there were 60k FRAUDULENT votes cast in the election, could that election be certified? If you "win" an election by a margin of 10k votes, but there were 60k FRAUDULENT votes cast in the election, could that election be certified?

What the MSM didn't tell you is that there are MORE FRAUDULENT BALLOTS THAN BIDEN "WON" BY!"

In Fact, mainstream media makes a living feeding the public pure bullshit that follows

# Ivermectin: A Coordinated Dis-Information Campaign

**I**t has become clear that there is a coordinated effort by mainstream media to discredit Ivermectin as a treatment for COVID. So let's take a moment to go over the facts regarding the science, safety, and efficacy of Ivermectin for COVID.

Forty years ago Ivermectin was isolated from soil bacteria by Dr. Sotoshi Omura. Since then, it has been prescribed nearly 4 billion times for use in humans to treat parasitic and viral infections. As with many medications, there are also formulations for animals.

Drs. William C. Campbell and Satoshi Omura won the Nobel Prize for Medicine for Ivermectin in 2015 for the drugs use in some of the world's most devastating tropical diseases (such as 'River Blindness'). In 2017, the scientific Journal Nature, published an article on Ivermectin describing it as a multi-faceted wonder drug, with un-

expected potential as an antibacterial, anti-viral, and anti-cancer agent. Ivermectin is on the WHO's list of essential medicine. With an unparalleled safety profile over decades, WHO reports side effects that are primarily minor and transient. The evidence for Ivermectin in COVID includes dozens of randomized, controlled trials and peer reviewed studies. A large body of epidemiological evidence from around the world, including countries such as India, Mexico, and nations in Central Africa. In addition, the Tokyo Medical Association recently advocated for Ivermectin's use against COVID. Some Doctors and Scientists have taken issue with the methodologies in some new trials of Ivermectin. This is expected in scientific debate. While one can take issue with the methods and conclusions of the peer reviewed science, to claim that there is "no science" to support the use of Ivermectin for COVID is patently false.

The many hundreds of experienced critical care doctors around the world who have prescribed Ivermectin for COVID, regardless of a patient's vaccination status have, of course, prescribed the human form of the drug based on the available data and based on their own clinical experience and expertise. To characterize this Nobel Prize winning drug, prescribed for humans, as "horse de-wormer" – THAT IS A LIE.

## Who Was Che Guevara

Well, he was a murderer; if not of (in the sense of directly/hands-on) homosexuals, then certainly of political opponents and political prisoners. He should not/could not likely have murdered any African-Americans however, no. The Dark, Violent, And Disturbing Life Of Che Guevara, The Cuban Liberator

From there,

*"After the Cuban revolution, Che was appointed commandant of La Cabana, a Havana fortress and army barracks immediately transformed into the new regime's political prison. From his office, Guevara supervised the perfunctory trials and mass executions performed in the immediate aftermath of Castro seizing power.*

"The exact number of individuals killed during this period remains a topic of historical dispute,

*but even historians sympathetic to Guevara acknowledge he had a hand in the killings. Estimated numbers range from a few hundred into the thousands.*

Eyewitness accounts, including incidents witnessed by Ernest Hemingway and George Plimpton, document Che executing individuals with his own hands".

He also participated in or helped to initially orchestrate organized mass persecution/internments of homosexuals. And he was probably (on some personal level at least) a 'casual' or occasional racist with regards to black people in general.

In those days Marxist socialism/communism generally viewed homosexuality as being, at best, a symptom of 'bourgeois capitalist decadence'. The more modern-day left-of-center identitarian politics (with regard specifically to things like gender...to say nothing of gender identity, and sexual orientation, etc.) were quite

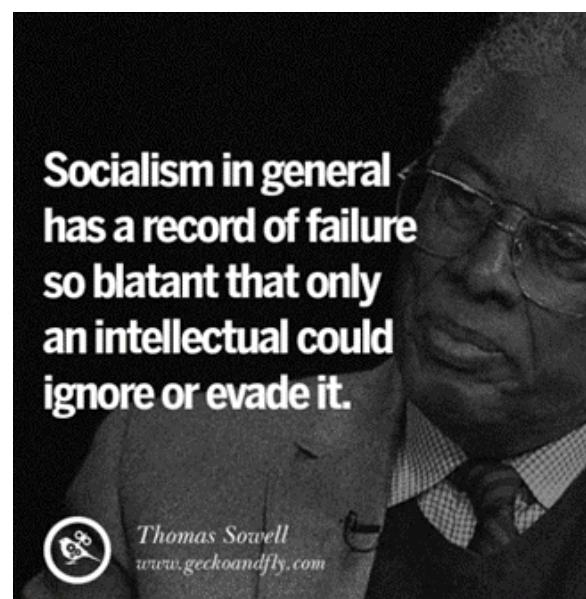

**"I can't be the friend of anyone who doesn't share my ideas."**

*less present or accentuated than they are today among the left-of-center and the left.*

In some sense they were hardly present as major issues at all, if at all. (Racial prejudice issues were openly considered; with the example of Nazi anti-Semitism and the American oppression of black Americans for instance being important counterpoints ~

but sexuality largely was not). The Dark, Violent, And Disturbing Life Of Che Guevara, The Cuban Liberator

Again, from there:

"Like most totalitarian regimes, Cuba officially persecuted the LGBT community. Among other things, this persecution entailed incarceration in forced labor camps, the first of which, Guanahacabibes, was set up by Che Guevara in 1960. Because service in the Cuban military was mandatory for certain age groups and this persecution continued for four decades, as homosexuals and AIDS victims were stigmatized and incarcerated in official government policy originating with Guevara. - *Read the whole article here*

A Socialist Manifesto for Gen Z, By Gen Z  
From the youngest delegate at the 2021 DSA convention.  
[teenvogue.com](http://teenvogue.com)

Teen Vogue urged its young readers in a recent online publication to "mobilize toward building a socialist future" and "shift the tide in favor of socialism," describing it as "the only system that will guarantee us a livable planet and life unburdened from

economic exploitation, crushing debt, and racial castes," while claiming, "there is no future for us under capitalism."

Noting that some of the "defining life experiences" affecting one's political consciousness occur during adolescence, Calla Walsh, a 17-year-old political organizer from Massachusetts described herself as "a 17-year-old socialist" who attributes a "fascist presidential administration, pandemic, economic collapse, and a historic uprising for Black lives" to having shaped her generation's worldview.

"These defining events and movements have caused Gen Z to become more disillusioned

# LETTER FROM THE EDITOR

**WE ARE AT WAR!** Can you feel it? If not, you're not paying attention. It's an information war that is hidden behind Media Liars! Your liberties are being attacked at every turn, and the tensions are at a fevered pitch. Our forefathers knew that at some point in the future, someone would decide to remove freedom from our lexicon so they wrote this into our laws "**A law repugnant to the Constitution is void. An act of Congress repugnant to the Constitution cannot become a law. The Constitution supersedes all other laws** and the individual's rights shall be liberally enforced in favor of him, the clearly intended and expressly designated beneficiary." —*Marbury v. Madison*, 5 U.S. 137 (1803)."

Our livelihoods are under attack: last year's healthcare heroes are this years unemployed having seen what the vaxxed are experiencing, the unvaxxed are this years lepers; businesses are being mandated into compliance by force firing qualified, conscientious workers, vax passports are in force for certain industries including air travel, and liberty for travel by car is squashing drivers with sky-high fuel prices that promise to rise even higher, and mileage taxes imposed by Uncle Joey.

The core message of the Christian faith is that Jesus Christ rescues us from the slavery of sin and offers true freedom in this life and beyond. This is what Jesus said:

*"For God so loved the world, that he gave his only Son, that whoever believes in him should not perish but have eternal life" (John 3:16).* Here's what Jesus said about the freedom He offers: *"If you abide in my word, you are truly my disciples, and you will know the truth, and the truth will set you free" (John 8:31-32).* *"Truly, truly, I say to you, everyone who practices sin is a slave to sin. The slave does not remain in the house forever; the son remains forever. So if the Son sets you free, you will be free indeed" (John 8:34-36).*

Imagine a vaccine so effective that people who take it have no immunity from the disease, are still carriers of the disease, and still transmit the disease. The government needs to make it more attractive by setting up lotteries, businesses complicit in the scam offer free beer, donuts, an hamburgers – because it's about your HEALTH.

Ask yourself why the hard sell on a such wonderful products from big Pharma?

In addition to the Red Box stats below we see 2,262 Miscarriage | 7,582 Heart Attacks | 6,812 Myocarditis/Pericarditis | 20,789 Permanently Disabled answers the

question of why the un-vaxxed will never be vaxed.

Why are public health officials and politicians ignoring the data ?

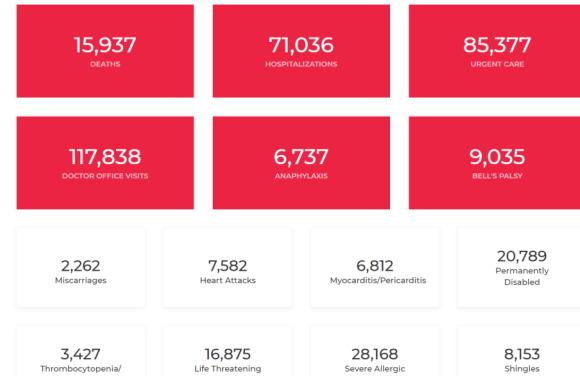

Why are they ignoring the victims of the COVID vaccine ?<sup>2</sup>

And the most important question of all... Why is the Resident of the United States pushing the vaxx on television every-single-day with a creepy secretive voice in an attempt to instill confidence in the people who will NEVER take this jab no matter what? But why would people be so selfish and unreasonable? Read the statistics below, notice how NO ONE ON TV is talking about any of this... because they think you're too stupid to do your own research, and ask yourself WHY this "vaccine" is still being pushed when the vaccine used for the Spanish flu killed far fewer before being pulled off the market?

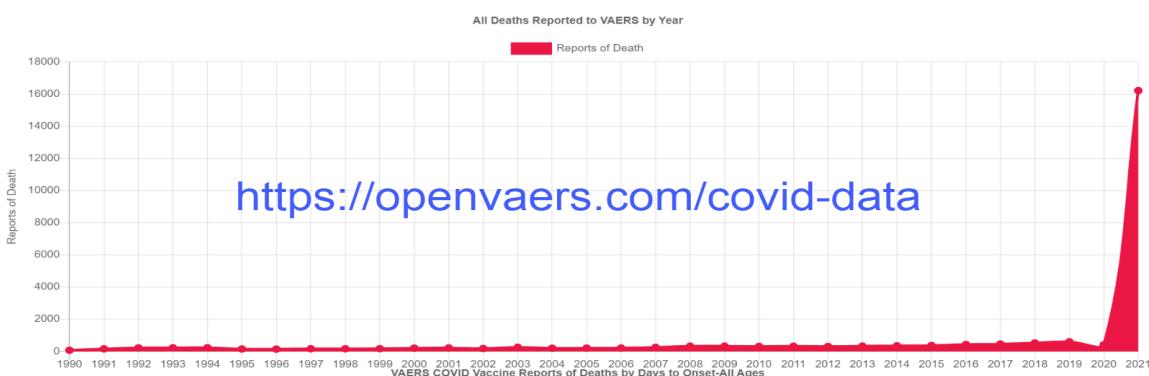

If you think I'm full of it, and just perpetuating a conspiracy theory... remember there's a mere 6 months from theory to fact. Turn off your TV, Read a Book, download a DuckDuckGo browser and do your own research. The underbelly of this evil runs wider and deeper than you can imagine. Don't take my word for it.... DO YOUR OWN RESEARCH!

*Rolling Stone published an article claiming an Emergency Room in Oklahoma is full because of people self-dosing Ivermectin. The hospital says the doctor Rolling Stone quoted in the article hasn't worked there in two months & they haven't had any IVM patients in the ER.*

Rolling Stone magazine has been called out for publishing an inaccurate story Saturday about hospitals in Oklahoma being overrun by Ivermectin overdoses.

The Rolling Stone story reported that the number of Ivermectin drug overdoses have so overwhelmed hospitals that gunshot victims have been unable to get medical treatment. Ivermectin is an anti-parasitic drug that has a human version but is more commonly used for deworming livestock.

In an interview with local Southeastern Oklahoma station KFOR, a rural Oklahoma physician Dr. Jason McElyea spread many of the same falsehoods.

"The ERs are so backed up that gunshot victims were having hard times getting to facilities where they can get definitive care and be treated," he said. "All of their ambulances are stuck at the hospital waiting for a bed to open so they can take the patient in and they don't have any, that's it," said Dr. McElyea. "If there's no ambulance to take

the call, there's no ambulance to come to the call."

**There is a price to pay for speaking the truth. There is a bigger price for living a lie.**

Cornel West

In response to that interview and the Rolling Stone piece, the Northeastern Health System (NHS) – Sequoyah released a statement claiming Dr. Jason McElyea "is not an employee of NHS Sequoyah", he also hasn't worked at that hospital in over two months nor have they treated any patients for Ivermectin overdoses.

## Members of Congress and Their Staff Are Exempt From Biden's Vaccine Mandate

BY [DARRAGH ROCHE](#) ON 9/10/21 AT 11:02 AM EDT

**R**esident Joe Biden's new vaccine mandates for federal employees don't apply to members of Congress or those who work for Congress or the federal court system.

Biden issued two executive orders on Thursday requiring vaccination<sup>1</sup> against COVID for federal workers and contractors who work for the federal government. He also asked the Department of Labor to issue an emergency order requiring businesses with more than 100 employees to ensure their workers are vaccinated or tested on a weekly basis.

However, Biden's order on federal workers applies to employees of the executive branch. The House of Representatives and the Senate belong to the separate legislative branch, and the courts to the judicial branch of the federal government.

Biden's COVID action plan - "Path Out of the Pandemic" - published on the White House website makes the effect of the vaccine mandate clear.

The plan says: "Building on the President's announcement in July to strengthen safety requirements for unvaccinated federal workers, the President has signed an Executive Order to take those actions a step further and require all federal executive branch workers to be vaccinated."<sup>2</sup>

White House website makes the effect of the vaccine mandate clear.

The plan says: "Building on the President's announcement in July to strengthen safety requirements for unvaccinated federal workers, the President has signed an Executive Order to take those actions a step further and require all federal executive branch workers to be vaccinated."<sup>3</sup>

"So—so here is the thing. We are—we cannot require someone to be vaccinated.<sup>4</sup> That's just not what we can do. It is a matter of privacy to know who is or who isn't," Pelosi said.

~ Editor's Note: This applies to YOU, as well.

Speaker of the House Nancy Pelosi said at a press conference on April 29<sup>4</sup> that the House couldn't require members to be vaccinated. Video clips of those remarks gained renewed attention online following Biden's announcement.

"So—so here is the thing. We are—we cannot require someone to be vaccinated.<sup>5</sup> That's just not what we can do. It is a matter of pri-

vacy to know who is or who isn't," Pelosi said.

"I can't go to the Capitol Physician and say, 'Give me the names of people who aren't vaccinated, so I can go encourage them or make it known to others to encourage them to be vaccinated.' So we can't—we can't do that," she said.

Pelosi's office reiterated that position in a statement to *Newsweek* on Friday, saying the speaker's April 29 remarks were "referring to the institution in which she serves."

"She's saying she cannot force Members to be vaccinated, which is true," the statement said.

In August, a group of Democrats in the House wrote a letter to the Capitol's attending physician, Dr. Brian P. Monahan, asking him to consider a vaccine requirement or a minimum of two COVID tests per week for members and staff who can't show proof of vaccination. No requirement has yet been put in place.

## Wake Up America! continued from Page 1.

My answer to you... Maybe, however, those studies were not done. YOU are the study right now. The Pfizer CEO said, "Israel is the biggest laboratory in the world." [And] So those long-term studies to rule out... Dr. Luke Monteguer, who won the noble prize in medicine for the discovery of HIV, said that this is the biggest risk to humanity, and the biggest risk of genocide in the history of humanity. [And so] The risk of an ADE reaction in humans, which happens later, has not been ruled out. So my question is, why would I vaccinate someone with a potentially destructive, lethal substance without ruling that out first?

And the third component here is the long-term consequences. There is definite evidence that it affects fertility. It damages ovarian function and reduces sperm counts, number one. Number two, it definitely increases the amount of auto-immune diseases. Who knows, over time, how that is going to reduce lifespan?

And Just last week a paper came out showing it increases the risk of cancer. So any way you want to look at it, whether in the acute setting where it causes blood clots, inflammation of heart, and miscarriages; in the mid-term sub-acute setting where it can result in a pathological disastrous immune reaction; or in the long-term whether it causes increased auto-immune diseases, cancer, and infertility.

## I have seen fear drive people to do things that are completely irrational

Now, that's a big concern; actually, I will say it this way. In my opinion, the current Israeli government is a gilgul (meaning reincarnation) of Josef Mengele. They have permitted human experimentation on their own people. [And] I'm going to tell you, I hope, I hope this base is a little different, maybe not. I know I finally understood when (Hebrew) If you see trouble in the Jewish people, you should look to the Jewish at the Rabbinic leadership. If the head is diseased, what do you expect of the body?

So I beg of this (unintelligible) above politics, and anything else that may alter your opinions, I have received death, daily death threats. I have risked my life, my career, my financial life, my reputation, almost my

family, everything, just to sit and tell you what I am telling you. So I will just summarize it. That there is actually no need for this vaccine. There is actually no need for anyone, and I will explain. Children I already told you they have a 99.998% of getting better. Young adults from 18 to 45 have 99.95% of getting better. This is according to the CDC, same concept. Someone who has already [had] COVID and has antibodies, naturally induced immunity is a billion times more effective than artificially induced immunity through vaccine. So I, why would I vaccinate someone with a poison death shot that makes inferior or dangerous antibodies, when I already have healthy antibodies. And then if you look at high risk population that has a 7.5% death rate... so my data, which was the first in the world, which I published in a peer reviewed journal, which has become the basis of 200 other studies, and that have corroborated my observations, that if you treat people in the right timeframe, you reduce death rate by 85%. So out of 600,000 Americans we could have prevented 510,000 from going to the hospital and dying. And by the way, I reported these finding to Bebe Netanyahu, directly into his hands by way of Ashlea in April of 2020 and I informed every single member of your ministry of health, as well.

So my question to you is, if I can reduce the death rate from 7.5% to less than a ½% why would I use a poison death shot that doesn't work, and has tremendous and horrific side-effects?

I'll do one more mind experiment with you. If everyone on the planet were to get COVID and not get treated, the death rate, globally, would be less ½ %. Now I'm not advocating for that, that's a lot of people. That's 35 million people would die. However, if we follow the advice of some the "global leaders" of the world, let's say, like Bill Gates said last year 7 billion people need to be vaccinated the death rate would be over 2 billion people, **SO WAKE UP!** This is World War 3. This is the level of malfeasance and malevolence that we have not seen probably in the history of humanity.

So I am against child sacrifice, I am against (Hebrew) and I really believe God is testing

### THE ZELENKO COVID19 PROTOCOL

ZINC KILLS VIRUS	HCQ ALTERNATIVES:	HAVE ONHAND:
ZINC CAN'T GET INTO CELLS	QUERCETIN	QUERCETIN &/or E.G.C.G.
HCQ OPENS THE CELL DOOR FOR ZINC	E.G.C.G. EPIGALLOCATECHIN GALLATE	VITAMIN C VITAMIN D ZINC

HCQ is prescription based only. Dr. Zelenko recommends Quercetin as an over-the-counter alternative. It is a plant derivative that does essentially the same thing as HCQ and is readily available. Quercetin, like HCQ, is a zinc ionophore which allows a rapid increase in intracellular zinc levels. It also enhances vitamin transportation to the cells. Vitamin C is a required cofactor for Quercetin to work. Vitamin D helps our immune systems stay balanced.

This chart simplifies & summarizes Zelenko's COVID19 protocols with the Quercetin alternative.

Prophylaxis (> 45 yrs old)	Treatment - high risk (> 45 yrs old)
Vitamin D3 5000IU 125mg, daily	Vitamin D3 10000IU 250mg, 7 days
Vitamin C 1000mg, daily	Vitamin C 1000mg, 7 days
Zinc 25-50mg, daily	Zinc 50-100mg, 7 days
HCQ 200mg, 5 days, then 200-400mg weekly or Quercetin 500mg, daily	HCQ 200mg, 2x daily 5-7 days or Quercetin 500mg, 3x daily for 7 days Azithromycin 500mg, 5 days

Prophylaxis Protocol Cost (on Amazon)	
Quercetin	\$33.87 6 months
Vitamin C	\$7.68 3+ months
Vitamin D3	\$19.99 1+ year
Zinc	\$4.58 3+ months

every human being. [And] Here is the test: Are you going to bow down to me, to Shem? Are you going to ask for your protection from me? Are you going to take your fears and ask me to help or are you going to run to the (Hebrew 13:05) the of the vaccine of your governments, of despots and tyrants, like Sociopaths who want to be devious? There's nothing new under the sun. These people are no different than Pharaoh. They think they are God. And you're going to bow down to them? If you're going to bow down to them, OK, let them protect you, let's see how that's going to work out. I have seen fear drive people to do things that are completely irrational, that do not make sense and they sacrifice their own children. And Yes your ministry of health is lying to you. Your statistics are absolutely skewed.

If you want to see something real, there's a website called worldometers.info. Go to Israel, and you can see December 20th there is a huge spike in the curve of death in Israel. Do you know what happened in Israel on December 20<sup>th</sup>? National Immunization started. [And] These are numbers being reported by the Israeli government. They're just too stupid to hide it. There is zero justification... **ZERO justification** for using this poison death shot unless you want to sacrifice human beings.

I think I'm done.

## AG Merrick Garland's Daughter Married to Co-Founder of Education Company Selling Critical Race Theory Resource Material to School Districts

October 5, 2021

**Well, well, well... This is interesting.** U.S. Attorney General Merrick Garland recently **instructed the FBI to begin investigating parents who confront school board administrators over *Critical Race Theory* indoctrination material.** The U.S. Department of Justice issued [a memorandum](#) to the FBI [instructing them to initiate investigations](#) of any parent attending a local school board meeting who might be viewed as confrontational, intimidating or harassing.

Attorney General Merrick Garland's daughter is **Rebecca Garland**. In 2018 Rebecca Garland married **Xan Tanner** [[LINK](#)]. Mr. Xan Tanner is the current co-founder of a controversial education service company called **Panorama Education**. Panorama Education is the "[social learning](#)" resource material provider to school districts and teachers that teach **Critical Race Theory**.

Yes, Merrick Garland's daughter is married to the founder of the company who helps schools,

teachers and staff deal with the modern challenges of "systemic racism" by "reimagining" the way to social learning "through an equity lens". As you have seen in the linguistic judo presented by the education material providers in the past, that's exactly what CRT education materials are about.

Yes, the **Attorney General is instructing the FBI to investigate parents who might pose a financial threat to the business of his daughter's husband.**

Last month Garland's son-in-law raised money, at least \$60 million, to expand their business operation

## FBI's Planned Insurrection Repeat Foiled

The FBI planned an event in Washington D.C. on September 18th under the guise of conservatives gathering in support of the J6 prisoners still being illegally jailed. They put out a concerted campaign to get conservative "terrorists" to show up so they had more ammunition to show the American people how "dangerous" freedom loving people are to the United States of America.

*"Are you undercover, or are you part of the event?"*

Footage from "Justice for J6" defendants rally: Police surround masked man reportedly armed with a firearm.

He tells them where the gun is, and they pull out his badge. He's undercover law enforcement.

Without disarming or handcuffing him, police extract him from the event.

Since anyone interested in such an event already knew the playbook of these criminals, few if any arrived in D.C. to peacefully protest for said event. The FBI could only find *themselves* hanging out, and even tried to arrest one of their own on the capital grounds. See the picture above where they realized after seeing the "combatants" FBI badge that their event fell flat on its face. They got nothing for which they planned the event.
